Uzbekistan: A Stable, Affordable, Globally Recognised MBBS Destination

Uzbekistan is a Central Asian republic of 36.8 million people, bordered by Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Afghanistan. Among Central Asian nations, it is considered one of the most secure and safest countries, with a low crime rate and a growing reputation as a destination for international education. The country operates 28 medical colleges — 15 government institutions and 13 private — giving Indian students a meaningful range of choices within a single, stable, NMC-approved system.

A Country Built for International Students

Government medical universities in Uzbekistan have evolved over decades to meet international training standards. The MBBS programme — referred to locally as the MD General Physician course, equivalent to MBBS in India — is now offered in full English-language tracks at the universities listed in this brochure.

Global Recognition

Degrees are recognised by:

- **National Medical Commission of India (NMC)**
- **World Health Organization (WHO)**
- **ECFMG**
- **World Federation for Medical Education (WFME)**
- **FAIMER**

Graduates can appear for FMGE or NExT in India, USMLE in the USA, and PLAB/UKMLA in the UK.

English Medium

The full MBBS curriculum at all three universities is delivered in English — lectures, textbooks, and examinations.

Practical Uzbek & Russian

Basic Uzbek and Russian language modules are part of the curriculum to support student-patient communication during clinical postings.

3 hr 20 min from Delhi

Delhi to Tashkent is approximately 3 hours 20 minutes by direct flight. Uzbekistan is only 30 minutes behind Indian Standard Time.

Why Indian Students Choose Uzbekistan for MBBS

The practical case is straightforward. Here is what sets Uzbekistan apart from other MBBS abroad destinations.

No Donation Fees. No Capitation.

Every university in this brochure is a government institution. Tuition is fixed, published, and the same for all students in the same programme. There is no management quota.

NMC-Compliant Programmes

All three universities are recognised by the National Medical Commission of India. Students with a valid NEET qualification are eligible to apply, and graduates can appear for FMGE or NExT to obtain Indian medical registration.

English Medium Instruction

The full MBBS curriculum is taught in English. Uzbek and Russian language classes are included to support clinical work with local patients, but lectures and examinations are conducted in English.

State-Funded Government Universities

All three institutions are owned and funded by the Republic of Uzbekistan, operating under the Ministry of Health and the Ministry of Higher Education.

Short Travel Time, Minimal Time Difference

Delhi to Tashkent is approximately **3 hours 20 minutes** by direct flight. The time difference is just **30 minutes** — among the smallest of any MBBS destination — making regular contact between students and parents straightforward.

Affordable Total Cost

Tuition at Uzbekistan's government medical universities ranges from approximately **USD 3,500 to USD 5,000 per year**. The three universities in this brochure publish full fee structures upfront, with no hidden charges.

Government-Backed, NMC-Recognised, and English Medium

1. Government Medical Education

All three universities operate under the Ministry of Health and the Ministry of Higher Education of the Republic of Uzbekistan. Each is recognised, regulated, and reviewed under national standards.

2. NMC-Recognised Degrees

Each of the three universities is recognised by the National Medical Commission of India. Indian students who complete the programme and clear FMGE or NExT obtain the same medical registration as graduates from Indian institutions.

3. English Medium Curriculum

The complete MBBS programme at FMIPH, NSUFM, and ASMI is delivered in English. Uzbek and Russian language modules accompany the curriculum to enable patient communication during clinical rotations.

4. Published, Fixed Fee Structures

Each university publishes its fee structure clearly, with year-by-year tuition, hostel, food, and administrative charges itemised. Indian students can plan the full six-year cost upfront.

Clinical Exposure, Culture, Diplomacy & Community

5. Strong Clinical Exposure

Uzbekistan's medical universities are affiliated with active regional hospital networks. FMIPH alone is affiliated with a **3,530-bed hospital network across 19 facilities** — including a city hospital, multifunctional hospitals, paediatric, oncology, perinatal, and dermatology hospitals — giving students broad clinical exposure during their training.

6. Welcoming Culture for Indian Students

All three universities operate **Indian-style messes** with vegetarian and non-vegetarian options. Indian festivals are observed on campus, and established Indian student communities exist at each institution. Uzbekistan is known for a welcoming attitude toward foreigners.

7. Strong India-Uzbekistan Diplomatic Ties

The Indian Embassy in Tashkent conducts approximately **75% of its India-Uzbekistan academic and cultural programmes at FMIPH**, making the campus a notable hub for diplomatic and educational exchange between the two countries.

8. International Student Environment

The three universities admit students from India, Nepal, Sri Lanka, parts of Africa, and the Middle East. Each maintains a **dedicated international student office** handling registration, visa renewals, and ongoing student support.

Top Universities in Uzbekistan

SECTION 3

Three government medical universities — each NMC-recognised, English medium, and offering a complete six-year MBBS (MD) programme at among the lowest fees available for Indian students abroad.

Fergana Medical Institute of Public Health (FMIPH)

UNIVERSITY 1 OF 3

FERGHANA

EST. 1992

NMC RECOGNISED

Overview

Fergana Medical Institute of Public Health is a government medical institution located in Fergana City, the administrative capital of the Fergana Region in eastern Uzbekistan. Established in 1992, the institute has operated under several names before its current standing. FMIPH offers specialised courses in General Medicine, Medical and Pedagogical Sciences, Medical and Preventive Health, and Higher Medical Care. The institute holds a world ranking of 3,368 and is positioned as one of the leading medical institutions in Uzbekistan.

- ✓ The **Indian Embassy in Tashkent conducts approximately 75% of its India-Uzbekistan programmes at FMIPH**, making it a premier hub for diplomatic and educational exchange between the two countries.

The student-to-staff ratio is 12–15 students per teacher, and Fergana International Airport is approximately 5 km from the institute.

Campus Facilities

Hospital Network

3,530-bed network across 19 affiliated facilities including city, multifunctional, paediatric, oncology, perinatal, and dermatology hospitals

Simulation Centre

Virtual patients and manikins for CPR, injections, catheterisation, and suturing

2,000+ Seat Auditorium

Air-conditioned with modern AV systems; air-conditioned biochemistry, microbiology, pathology, and anatomy laboratories

750-Bed Hostel

Single, twin-sharing, and four-sharing rooms; Wi-Fi enabled with digital TV, air-conditioned lounge, and Indian-style mess

Key Facts

- **Year Established:** 1992
- **Duration:** 6 years (5 years academic + 1 year internship)
- **Medium:** English (+ Uzbek/Russian for clinical communication)
- **1st Year Fee:** USD 8,200 (tuition, development fee, hostel, Indian food, registration, medical test, documentation)
- **2nd Year Fee:** USD 5,450 (including hostel and food)
- **3rd – 6th Year Fee:** USD 3,500 per year
- **City:** Fergana
- **Student-Staff Ratio:** 12–15 students per teacher

Namangan State University Faculty of Medicine (NSUFM)

UNIVERSITY 2 OF 3

NAMANGAN

EST. 1942

NMC RECOGNISED

Overview

Namangan State University Faculty of Medicine is the medical wing of Namangan State University — established in 1942 as a pedagogical institute and granted financial independence by Presidential Decree PQ-61 dated 24 December 2021. The university serves Namangan Province, home to approximately 2.8 million people across an area of 7,900 km² in eastern Uzbekistan.

NSUFM is part of a larger institution with **16 faculties and 46 academic departments**, spread across 8 educational buildings with a combined capacity of 8,787 students and 243 classrooms. The Faculty of Medicine cooperates with three Russian higher education institutions for 7 undergraduate courses and educational programmes.

i NSUFM offers **one of the lowest first-year cost packages** among Uzbekistan's government medical universities, with hostel and core academic costs included.

Key Facts

- **Year Established:** 1942
- **Duration:** 6 years (5 years academic + 1 year internship)
- **Medium:** English (+ Uzbek/Russian for clinical practice)
- **1st Year Total:** USD 4,750 (semester-split: USD 1,750 + USD 1,750 + hostel, medical, activity, document, development, administrative fees)
- **2nd Semester Fee:** USD 1,750
- **2nd Year Onwards:** USD 3,800 per year
- **Annual Food (Year 1):** USD 1,200 (paid one-time)
- **City:** Namangan
- **Hostel (Yr 1):** USD 600 (Year 2 onwards optional)

Andijan State Medical Institute (ASMI)

UNIVERSITY 3 OF 3

ANDIJAN

EST. 1955

NMC RECOGNISED

Overview

Andijan State Medical Institute, established in 1955, is one of Uzbekistan's longer-standing medical institutions. Located in Andijan City — a major centre of the Fergana Valley — ASMI offers a 5.8-year MBBS/MD programme including a one-year internship.

ASMI publishes a clear, tiered fee structure with full first-year inclusive packages and a fixed annual fee model for years 2 through 6. The institute also provides **comprehensive admission and onboarding services** for international students, including airport pickup, visa stamping, immigration clearance, and pre-departure briefing.

- ✓ The **total course cost is approximately USD 25,750** (~Rs. 23.17 lakh at Rs. 90 = USD 1) — one of the most affordable complete MBBS programmes among NMC-recognised universities.

Key Facts

- **Year Established:** 1955
- **Duration:** 5.8 years (academic + 1-year internship)
- **Medium:** English (+ Uzbek/Russian for clinical communication)
- **1st Year Package:** USD 6,500 (~Rs. 5.85 lakh) — tuition, hostel, admin, documentation, one-time university charge
- **2nd – 6th Year:** USD 3,850/yr (tuition USD 3,500 + admin USD 350)
- **Total Course Cost:** USD 25,750 (~Rs. 23.17 lakh approx.)
- **Annual Food:** USD 1,200
- **Annual Police Registration:** USD 300 (compulsory each year)
- **City:** Andijan

Recognition

NMC (India) | WHO | ECFMG | Ministry of Health, Republic of Uzbekistan

Admission Services Included

→ Pre-Arrival Services

Admission registration and admission letter, Multiple Entry Study Visa stamping (one-year validity, renewable), immigration clearance, document translation, police registration, medical clearance, and Ministry permission and approval

→ On-Arrival Services

RFID-enabled Student I-card issuance, one-way air ticket, pre-departure briefing, legalisation of documentation from MEA (Ministry of External Affairs), airport pickup and drop at host, and compulsory mess in first year

Fee Structure at a Glance

SECTION 4

All fees are indicative based on current university fee structures published for the 2025–26 and 2026–27 sessions. Tuition is billed in USD; INR figures are subject to exchange rate variation. Students should confirm current fees with the respective university before payment.

University	1st Year Fee (USD)	2nd Year Onwards (USD)	Total Course Cost (Approx.)
Fergana Medical Institute of Public Health (FMIPH)	8,200	5,450 (Yr 2) / 3,500 (Yr 3–6)	~USD 27,650
Namangan State University Faculty of Medicine (NSUFM)	4,750 + 1,750 (2nd sem)	3,800 per year	~USD 25,500
Andijan State Medical Institute (ASMI)	6,500	3,850 per year	USD 25,750

☐ All three universities are government-funded. No donation fees, no capitation charges, no management quota. Fees are fixed and published for all students in the same programme.

Additional Annual Expenses to Plan For

NSUFM Visa registration ~USD 250 (Yr 1), Food ~USD 1,200 (Yr 1), Medical check-up & Hospital card ~USD 50	ASMI Annual food ~USD 1,200, Annual police registration ~USD 300 (compulsory every year), Air ticket as per actuals	FMIPH Indian-side support — Admission letter, invitation letter, visa, document apostille, airport support ~Rs. 1,50,000 + Service charges Rs. 50,000 + 18% GST

Frequently Asked Questions

SECTION 5

1

Is NEET mandatory for MBBS in Uzbekistan?

Yes. As per NMC regulations, Indian students must have a valid NEET qualification to pursue MBBS abroad and be eligible to appear for FMGE or NExT in India. Students should have a NEET score from the current year or either of the two preceding years.

2

What is the academic eligibility?

Applicants must have completed Class 12 (10+2) or equivalent with Physics, Chemistry, and Biology as core subjects, with a minimum of 60% in these subjects. Students must be at least 17 years old at the time of admission, with no upper age limit.

3

Is IELTS or TOEFL required?

No. None of the three universities requires IELTS or TOEFL. The MBBS programme is taught in English, and admission is based on Class 12 academic records and a valid NEET qualification.

4

Will I need to learn Uzbek or Russian?

You do not need Uzbek or Russian for lectures, examinations, or textbooks — all academic work is in English. Basic Uzbek and Russian language classes are included in the curriculum at all three universities for clinical communication with patients. Most Indian students find this manageable within the first year.

More Frequently Asked Questions

1

Is the degree valid in India?

Yes, provided you graduate from an NMC-recognised institution. All three universities in this brochure are on the NMC-approved list. After completing your degree, you must clear **FMGE** or **NEXT** to obtain Indian medical registration. 12thplus advises students to treat FMGE or NExT preparation as a parallel track alongside academic coursework from Year 1.

2

Is Uzbekistan safe for Indian students?

Yes. Uzbekistan is considered one of the most secure countries in Central Asia, with a low crime rate. All three universities provide 24-hour security in hostels, CCTV surveillance, and dedicated international student support offices. Indian students form well-established communities at each campus, and Indian-style messes operate at all three universities.

3

Can I practise in the UK, USA, or Australia after graduating?

Yes, subject to clearing the relevant licensing examinations. Degrees from NMC-recognised universities accredited by WHO and ECFMG allow graduates to pursue **USMLE** (USA), **PLAB/UKMLA** (UK), and **AMC** (Australia) pathways. Each is a competitive examination with its own preparation requirements. A 12thplus counsellor can advise on the specific pathway and timeline for your target country.

4

What is the weather like in Uzbekistan?

Uzbekistan has a continental climate with significant seasonal variation — summers can reach 40°C, while winters drop to around -5°C in most regions. The Fergana Valley, where all three universities are located, has a relatively warm climate with average temperatures around 28°C. Snowfall is common in winter, but hostels are equipped with central heating. Most Indian students adjust within the first season with appropriate winter clothing.

5

How close is Uzbekistan to India?

Delhi to Tashkent is approximately 3 hours 20 minutes by direct flight. Flights also operate via Dubai and Sharjah from Mumbai, Kochi, and other Indian cities. The time difference is just 30 minutes — Uzbekistan runs 30 minutes behind Indian Standard Time. Fergana International Airport is approximately 5 km from FMIPH.

6

What documents are required for admission?

Standard requirements across the three universities include: Passport (scanned copy; Aadhaar Card may substitute if passport not yet issued — applies to FMIPH), Class 12 / Plus Two certificate (scanned), passport-sized photographs / digital photo with white background, and NEET score card. Admission letter, invitation letter, document apostille, and visa application follow during processing.

What Is the Total Cost for 6 Years?

Total cost varies by university and individual lifestyle. Here is a clear breakdown to help you plan.

Most Affordable Option

NSUFM — Namangan

1st Year: USD 4,750 + USD 1,750 (2nd sem)

Total six-year cost including tuition, hostel, food, and living expenses:

**~USD
25,500**

Full-Service Options

ASMI & FMIPH

1st Year: USD 6,500 – USD 8,200

Total six-year cost including all inclusive first-year packages and annual fees:

**USD
25,750 –
27,650**

 INR figures are subject to exchange rate variation. All costs are indicative — please confirm current fees with a 12thplus counsellor before payment.

These figures are based on university-published fee structures for 2025–26 and 2026–27. Students who travel frequently or live off campus will spend more. All costs are indicative.
