

MBBS in Georgia

Your European Medical Degree.

Internationally Recognised. Genuinely Affordable.

NMC RECOGNISED

ENGLISH MEDIUM

BOLOGNA PROCESS

Georgia: A Serious Option for MBBS Abroad

Georgia has become one of the most consistent destinations for Indian medical students over the last decade. Not because of marketing, but because the numbers hold up. The degrees are NMC recognised, the medium of instruction is English throughout, the cost of living is low, and students who graduate here are clearing FMGE and going on to practice medicine in India and across the world.

Where Georgia Stands

Georgia sits at the intersection of Europe and Asia, with the Caucasus Mountains to the north and the Black Sea to the west. It joined the Bologna Process in 2005, aligning its medical degrees with European academic standards.

Global Recognition

Universities are listed in the **World Directory of Medical Schools (WDOMS)**, accredited by the **NCEQE**, and recognised by:

- NMC (National Medical Commission, India)
- WHO
- ECFMG
- FAIMER

For Indian students who cleared NEET but could not secure a government seat, and who are looking at a genuine medical education rather than just a degree on paper, Georgia belongs in the conversation.

Why Indian Students Are Choosing Georgia

The practical case is straightforward. Here is what sets Georgia apart from other MBBS abroad destinations.

No Capitation Fees

Unlike private medical colleges in India where families pay Rs. 80 lakh to over Rs. 1 crore, Georgian universities charge a flat tuition fee with no hidden charges, no donation seats, and no management quota.

NMC Compliance

All five universities listed in this brochure are recognised by the National Medical Commission of India. Graduates are eligible to appear for FMGE or NExT to obtain Indian medical registration.

English Throughout

The entire MBBS curriculum is taught in English. Students do not need to learn Georgian to understand lectures, read textbooks, or complete exams.

NEET-Qualified Students Eligible

As per NMC guidelines, Indian students need a valid NEET score to pursue MBBS abroad. No additional entrance exam is required by the universities.

Total Cost Comparison

Tuition across the top Georgian universities ranges from **USD 5,000 to USD 8,000 per year**. The total six-year cost, including tuition, hostel, food, and living expenses, typically works out between **Rs. 35 lakh and Rs. 55 lakh** — a fraction of comparable private colleges in India.

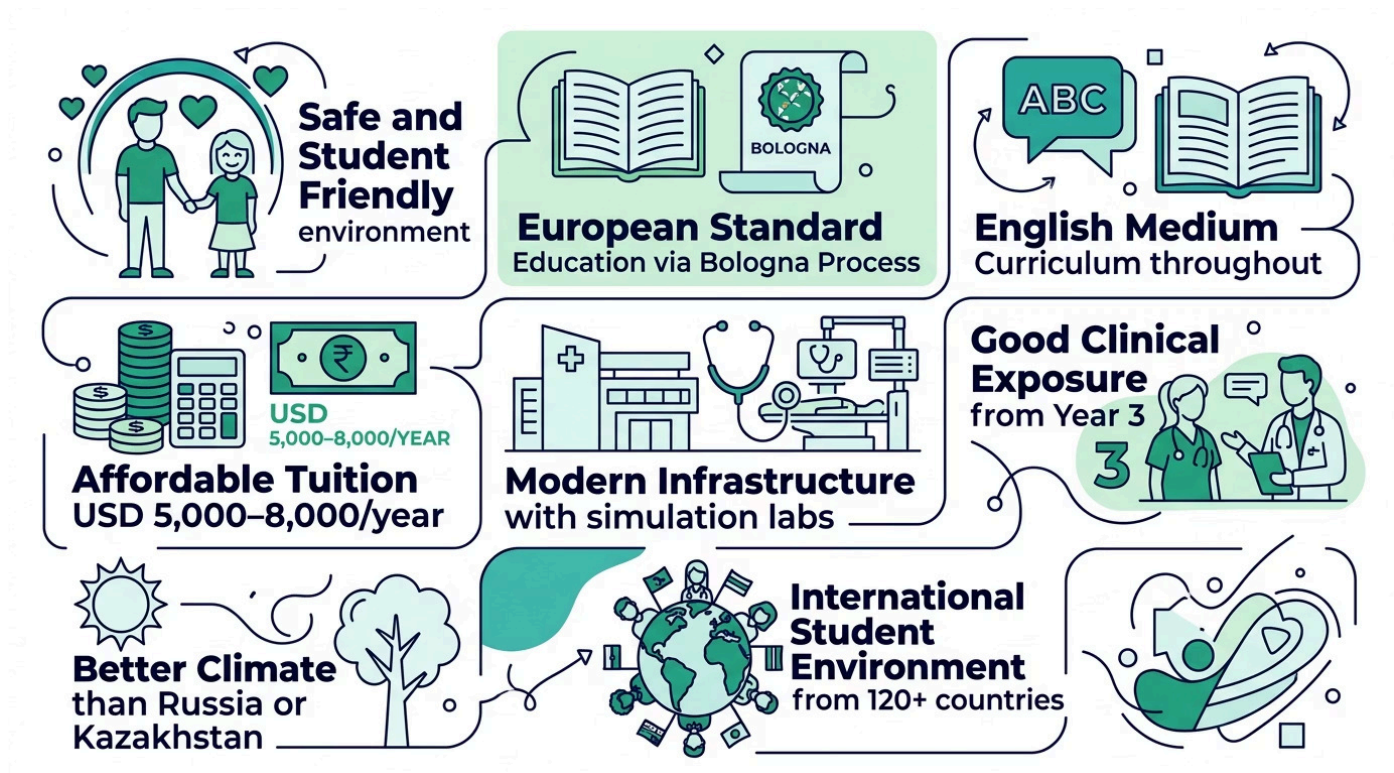

Safety & Community

Georgia consistently ranks among the safest countries in Eastern Europe. Tbilisi has a low crime rate, a well-established Indian student community, and Indian food available at multiple locations. Batumi, on the Black Sea coast, has a similar profile.

8 Reasons Georgia Works for Indian Medical Students

SECTION 2

From safety and affordability to clinical exposure and international recognition — here is the complete case for choosing Georgia as your MBBS destination.

Safe, European-Standard, and English Medium

1. Safe and Student Friendly

Georgia is one of the most welcoming countries for international students in the region. Locals are respectful, cities are well connected, and the Indian student community in both Tbilisi and Batumi is large and active. Female students in particular find the environment safe and manageable.

2. European Standard Education

Georgia joined the Bologna Process in 2005 and follows the European Credit Transfer and Accumulation System (ECTS). Medical curricula are structured in line with **WFME global standards**, which is why Georgian degrees are accepted across the EU, UK, US, Australia, and India.

3. English Medium Curriculum

All programmes at the universities in this brochure are taught entirely in English. Lectures, practical sessions, clinical rotations, and examinations are all conducted in English. Students do not need to clear IELTS or TOEFL for admission.

4. Affordable Tuition

Annual tuition fees at the listed universities range from **USD 5,000 to USD 8,000**. When compared to private MBBS colleges in India, which typically charge Rs. 10 lakh to Rs. 20 lakh per year in tuition alone (before donation or other fees), the difference is significant.

Infrastructure, Clinical Exposure, Climate & Community

5. Modern Infrastructure

Georgian medical universities have invested heavily in infrastructure over the last decade. Simulation labs, anatomy halls, anatomy plastination facilities, digital libraries, and dedicated clinical skills centres are standard at the top institutions. Several universities have their own teaching hospitals.

6. Good Clinical Exposure

Georgian universities have affiliation agreements with large public and private hospitals across Tbilisi and Batumi. Students begin clinical rotations from **Year 3 onwards** in most programmes. Hospital bed counts at affiliated facilities range from 200 to over 500, covering medicine, surgery, paediatrics, obstetrics, and other core specialities.

7. Better Climate

Tbilisi has a humid subtropical climate with warm summers and mild winters, closer in character to north India than the extreme cold of Russia or Kazakhstan. Batumi, on the Black Sea coast, has an even milder, more tropical climate. Students from India generally adapt quickly.

8. International Student Environment

Georgian universities host students from India, Nigeria, the Middle East, Central Asia, and across Africa. This creates a genuinely international learning environment and helps students build networks that are useful later in their careers, whether they choose to practice in India or internationally.

Top Universities in Georgia

SECTION 3

Five NMC-recognised universities, two cities, and one clear objective: a genuine European medical degree that opens doors in India and across the world.

1

BAU International University Batumi

Batumi · USD 4,800/yr (revision to USD 6,300 expected). 63.29% FMGE pass rate (2024)

2

Grigol Robakidze University (GRUNI)

Tbilisi · USD 5,500/yr · PINEO 350-bed teaching hospital

3

East European University (EEU)

Tbilisi · USD 5,500/yr · 12+ affiliated teaching hospitals

4

Georgian American University (GAU)

Tbilisi · USD 6,500/yr · 18+ hospital affiliations

5

Georgian National University (SEU)

Tbilisi · USD 5,900/yr · 85,000 sqm campus, 5,300+ bed network

BAU International University Batumi

UNIVERSITY 1 OF 5

BATUMI

Overview

BAU International University Batumi is part of the global BAU network, with campuses in Turkey, the USA, Kyrgyzstan, and Georgia. The Batumi campus opened in 2015 and has rapidly built a reputation among Indian students for strong FMGE results.

- ✓ In the 2024 FMGE examination, **100 out of 158 BAU Batumi graduates passed** — a pass rate of 63.29%. This placed it above all universities from Russia, Kyrgyzstan, Kazakhstan, and Uzbekistan (among institutions with at least 100 appearing students).

The university is located in Batumi, the capital of the Adjara region on the Black Sea coast. The city is compact, walkable, and has a lively student population. The climate is mild and subtropical, with temperatures rarely dropping below 5°C in winter.

Campus Facilities

Simulation Lab

Mannequins and procedural training equipment

Anatomy Hall

Fully equipped anatomy and biochemistry labs

Digital Library

Access to international medical journals

On-Campus Hostel

Separate blocks for male and female students

Key Facts

- **Year Established:** 2015
- **Duration:** 6 years (5 years academic + 1 year internship)
- **Medium:** English
- **Tuition Fee:** USD 4,800/yr (revision to USD 6,300 expected)
- **Hostel Fee:** USD 1,000–1,500/yr
- **City:** Batumi
- **Monthly Living:** USD 250–350

Recognition

NMC (India) | WHO | WFME | ECFMG | FAIMER | Georgian Ministry of Education (accredited until 2028)

Grigol Robakidze University (GRUNI)

UNIVERSITY 2 OF 5

TBILISI

Overview

Grigol Robakidze University is one of the oldest private universities in Georgia, established in 1992 under the name Alma Mater and renamed in 1995. The campus in Tbilisi is built in a European architectural style.

- 📌 The standout asset for MBBS students is **PINEO Multi-Speciality Hospital** — a modern 350-bed teaching facility handling over 1,000 patients per day. GRUNI students carry out clinical rotations at PINEO and several other affiliated hospitals, including Bokeria University Hospital.

GRUNI is among the top five higher education institutions in Georgia by student employability, according to the UNESCO International Institute of Education Management. The university joined the Bologna Process in 2005 and has maintained active exchange agreements with European partner institutions.

Key Facts

- **Year Established:** 1992
- **Duration:** 6 years (5 years core + 1 year internship)
- **Medium:** English
- **Tuition Fee:** USD 5,500/yr (total ~USD 33,000)
- **Hostel Fee:** USD 1,500/yr (approximate)
- **City:** Tbilisi
- **Monthly Living:** USD 300–450

Recognition

NMC (India) | WHO | FAIMER | WDOMS | Georgian Ministry of Education

Campus Facilities

Library

Over 20,000 books and digital resources

Laboratories

Advanced chemistry and medical science labs

Forensic Centre

Crime research and forensic science centre

Sports Complex

Full sports facilities and student canteen with Indian food

Hostel

Separate blocks for male and female students, 24-hour internet

East European University (EEU)

UNIVERSITY 3 OF 5

TBILISI

Overview

East European University was established in 2012 in Tbilisi. It is one of the younger universities on this list, but it holds full recognition from NMC, WHO, WFME, ECFMG, and FAIMER and was listed in the World Directory of Medical Schools by 2014. The Faculty of Healthcare Sciences launched its MD (Medicine) programme in 2017.

EEU is a private institution approved by the Ministry of Education and Science of Georgia and is a member of the European University Association. The university has built its clinical training network to **12 or more affiliated teaching hospitals** across Tbilisi, covering public and private sector facilities. Clinical rotations begin from Year 3 onwards.

✓ Over **400 EEU graduates** are now practising in India, EU countries, and the Middle East.

The university maintains institutional membership with the Association for Medical Education in Europe (AMEE) and participates in faculty exchange programmes with European partners.

Campus Facilities

→ Dedicated Laboratories

Anatomy, biochemistry, microbiology, and pharmacology labs with modern equipment

→ Library & Hostel

Printed and electronic medical resources; on-campus hostel with furnished rooms and common areas

→ Computer Resource Centres

Internet access and medical software for research and study

→ Clinical Skills Centre

Training centre at affiliated hospitals; student support services for documentation, insurance, and registration

Key Facts

- **Year Established:** 2012
- **Duration:** 6 years (360 ECTS credits, including 1 year internship)
- **Medium:** English
- **Tuition Fee:** USD 5,500/yr
- **Hostel Fee:** USD 3,000/yr (includes mess facility)
- **City:** Tbilisi (4 Shatili Street)

Recognition

NMC (India) | WHO | WFME | ECFMG | FAIMER | Georgian Ministry of Education (NCEQE Accredited)

Georgian American University (GAU)

UNIVERSITY 4 OF 5

TBILISI

Overview

Georgian American University was founded in 2001 in Tbilisi. The institution originally launched as a law school, inspired by American liberal arts pedagogy, before expanding into medicine, business, engineering, and social sciences. The Medical School was established in 2017 and received NMC recognition the same year.

GAU is notable for its **clinical depth**. The university has affiliation agreements with **18 or more teaching hospitals** in Tbilisi, including the 520-bed Gudushauri National Medical Centre and the 420-bed Tbilisi Central Republican Hospital. These facilities cover a wide range of specialities and give students meaningful exposure to high-volume clinical environments.

The MBBS (MD) programme at GAU runs for 6 years, including a 1-year internship. The curriculum follows a 54-month academic period plus 12 months of clinical internship, in line with NMC 2021 gazette requirements. The student-to-faculty ratio is **12:1**, and the campus covers approximately 6,000 square metres in the Saburtalo district of Tbilisi.

Key Facts

- **Year Established:** 2001 (Medical School: 2017)
- **Duration:** 6 years (54 months academic + 12 months internship)
- **Medium:** English
- **Tuition Fee:** USD 6,500/yr
- **Hostel Fee:** USD 1,200–1,800/yr
- **City:** Tbilisi (10 Merab Aleksidze Street)
- **Student:Faculty Ratio:** 12:1

Recognition

NMC (India) | WHO | ECFMG | FAIMER | WFME | WDOMS | Georgian Ministry of Education (6-year accreditation granted 2021)

Campus Facilities

GeoLab IT Laboratory

Advanced computing resources for research

Preclinical Labs

Anatomy and preclinical training laboratories

Library & Research

Legal and medical research clinics, information centre

Exchange Programmes

Partner institutions in USA, Europe, Canada, and Australia

Georgian National University (SEU)

UNIVERSITY 5 OF 5

TBILISI

Overview

Georgian National University (SEU) was established in 2001 and is one of the most attended private universities in Georgia. The university has invested over **USD 60 million** in its medical facilities. Its campus covers more than **85,000 square metres** (roughly 21 acres), making it one of the largest university campuses in the region, and its affiliated clinical network includes hospitals with a combined capacity of over **5,300 beds**.

SEU is a member of the European University Association (EUA) and the Association of Universities in the Black Sea Region (AUBSR), and it complies with the Bologna Process and ECTS credit system. The university hosts over **4,000 international students from more than 120 countries** and has a strong and visible Indian student community.

 SEU runs a **dedicated FMGE preparation track** for Indian students alongside the core curriculum. The student-to-professor ratio is approximately 1:9.

Key Facts

- **Year Established:** 2001
- **Duration:** 6 years (5 years core + 1 year internship)
- **Medium:** English
- **Tuition Fee:** USD 5,900/yr
- **Hostel Fee:** USD 1,000/yr (includes security, internet, common areas)
- **City:** Tbilisi (Tsinandali Street 9)
- **Student:Professor Ratio:** 1:9

Recognition

NMC (India) | WHO | WFME | ECFMG | FAIMER | MCC | WDOMS | Georgian Ministry of Education

Campus Highlights

World-Class Medical Facilities

Smart classrooms, audio-visual lecture halls, advanced pre-clinical and clinical laboratories including **robotic surgery training**, and a high-standard medical library with over 5,000 titles and full digital access.

Indian Student Support

Indian food available on campus with Indian cooking staff, dedicated student support team including Indian staff members, and 24-hour security across the entire campus.

Research & International Collaboration

Research centres in collaboration with international organisations, sports complex, student lounges, and on-campus hostel with separate male and female accommodation.

Fee Structure at a Glance

SECTION 4

The following table provides a comparative overview of annual tuition, hostel fees, and estimated total six-year costs across all five universities. All figures are in USD unless stated otherwise. Please confirm current rates with a GooCampus counsellor at the time of your application.

University	Annual Tuition (USD)	Annual Hostel (USD)	Est. Total 6-Year Cost (Rs.)	Monthly Living Expenses (USD)
BAU International University Batumi	4,800	3,000	Rs. 35–45 lakh	250–350
Grigol Robakidze University (GRUNI)	5,500	3,000	Rs. 38–48 lakh	300–450
East European University (EEU)	5,500	3,000 (incl. mess)	Rs. 40–50 lakh	300–450
Georgian American University (GAU)	6,500	3,000	Rs. 45–55 lakh	300–450
Georgian National University (SEU)	5,900	1,000	Rs. 38–48 lakh	300–450

 All cost estimates assume an INR/USD exchange rate of approximately Rs. 84 per dollar and modest to average living expenses. Students who live off campus or travel frequently will spend more. All costs are indicative — please speak to a GooCampus counsellor for a personalised cost breakdown based on your chosen university and intake year.

Frequently Asked Questions

SECTION 5

1

Is NEET mandatory for MBBS in Georgia?

Yes. As per NMC regulations effective from 2021, Indian students who wish to pursue MBBS abroad and practice in India must have a valid NEET qualification. You do not need to score above any particular cutoff for admission to Georgian universities, but you must have a NEET score. Universities themselves do not require NEET for the admission process, but NMC will not allow you to appear for FMGE or NExT without it.

2

Is IELTS or TOEFL required?

No. The MBBS programmes are taught in English, and admission is based on academic records, NEET qualification, and basic document verification. Students who completed their 10+2 in an English medium school do not need any additional language certificate.

3

Is Georgia safe for Indian students?

Georgia consistently ranks among the safest countries in Eastern Europe by international safety indices. Tbilisi has a low crime rate and a strong law enforcement presence. Batumi is a smaller coastal city with a similarly safe profile. Both cities have large, well-established Indian student communities, which means new students have access to peer networks and community support from day one. Female students in particular report feeling safe in both cities.

More Frequently Asked Questions

1

Is the degree valid in India?

Yes, provided you graduate from an NMC-recognised institution. All five universities in this brochure are on the NMC list of approved foreign medical institutions. After completing your degree, you must clear the **FMGE** (Foreign Medical Graduates Examination) or the **NExT** (National Exit Test, which replaces FMGE on a phased basis) to obtain Indian medical registration and practice rights. GooCampus advises students to use the full six years of their programme to prepare seriously for this exam.

2

Do I need to learn Georgian?

No. All five universities teach the MBBS programme in English. Students do not need to speak Georgian for lectures, practicals, or exams. That said, picking up basic Georgian phrases is useful for daily life, communicating with patients in clinical settings, and building relationships with local colleagues. The universities provide language orientation sessions for this purpose.

3

Can I practice in the UK, USA, or Australia after graduating?

Yes, subject to clearing the relevant licensing examinations in each country. Georgian degrees from NMC-recognised universities are eligible for **USMLE** (USA), **PLAB** (UK), and **AMC** (Australia) pathways, as the institutions are listed in WDOMS and recognised by ECFMG. Clearing these exams and completing the required residency or supervised practice programmes is the student's responsibility. GooCampus can advise on the specific pathway for your target country.

What Is the Total Cost for 6 Years?

Total cost varies by university and individual lifestyle. Here is a clear breakdown to help you plan.

Lower Range Universities

BAU Batumi, GRUNI, EEU, SEU

Tuition: USD 4,800–5,900/yr

Total six-year cost including hostel, food, health insurance, and personal expenses:

Rs. 44–48 Lakh

Higher Range Universities

SEU, GAU

Tuition: USD 5,900–6,500/yr

Total six-year cost including hostel, food, health insurance, and personal expenses:

Rs. 51–55 Lakh

 BAU Batumi's fee is currently USD 4,800/yr but is expected to be revised to USD 6,300. Please confirm the applicable rate for your intake year.

These figures assume the INR/USD exchange rate at approximately Rs. 84 per dollar and modest to average living expenses. Students who live off campus or travel frequently will spend more. All costs are indicative.
